**Subject:** Feb CAG mtg

As you just saw in Doug's email, the chairs of the CAG have decided that they are going to poll people's availability for Feb 18th since the 11th doesn't seem to work for several people. If more than half of the people can make it they will reschedule the Feb CAG to that date, otherwise it will be cancelled. Topics for discussion would include the removal CHASP, 8 mile conceptual site model, and a TAG presentation. They've decided that the focus for the March CAG should be the sediment decon and disposal options for the 8 mile and the CHASP, with the 8-mile piece occurring at the beginning to involve the RA in case she doesn't stay for the whole meeting.
